

 **JUST FREIGHT** 
THAT'S WHAT WE DO

BRISBANE - BUNDABERG - MARYBOROUGH - HERVEY BAY

ABOUT THE COMPANY

Just Freight offers secure, reliable local and general freight delivery services, and a daily line-haul from Brisbane to Bundaberg. As a local family business with more than 25 years in our industry, we proudly provide outstanding logistics solutions to our customers and community. We've got trucks, drivers, warehouses, a freight hub and more at our disposal so there's no job too big or too hard for our team. We work while you sleep to get the job done.

WHY USE JUST FREIGHT?

At Just Freight, you can access cost effective Local Delivery and General Freight Services to ensure your product is always where it's needed on time. With our tried and proven linehaul network, we can guarantee security and reliability on routes covering Brisbane, Bundaberg, Gladstone, Rockhampton and multiple locations in between. We also provide specialised services such as warehousing, commercial storage, container packing/unpacking, 24-hour secure surveillance and trucks with mounted forklifts or tailgate loaders.

SERVICES

One of the benefits of working with a family business is that we keep our communication in-house (even while handling 1300 consignments per day). If you need to get in touch, we're the ones who'll answer the phone and work on solving the problem or help you access help from our national partners. We've also welcomed the next generation of the family into the fold so we enjoy the benefits of years of experience alongside the willingness to innovate and keep up with industry changes.

Call us and we'll arrange the freighting solution that's ***JUST*** right for your business.

VISION OF THE FUTURE

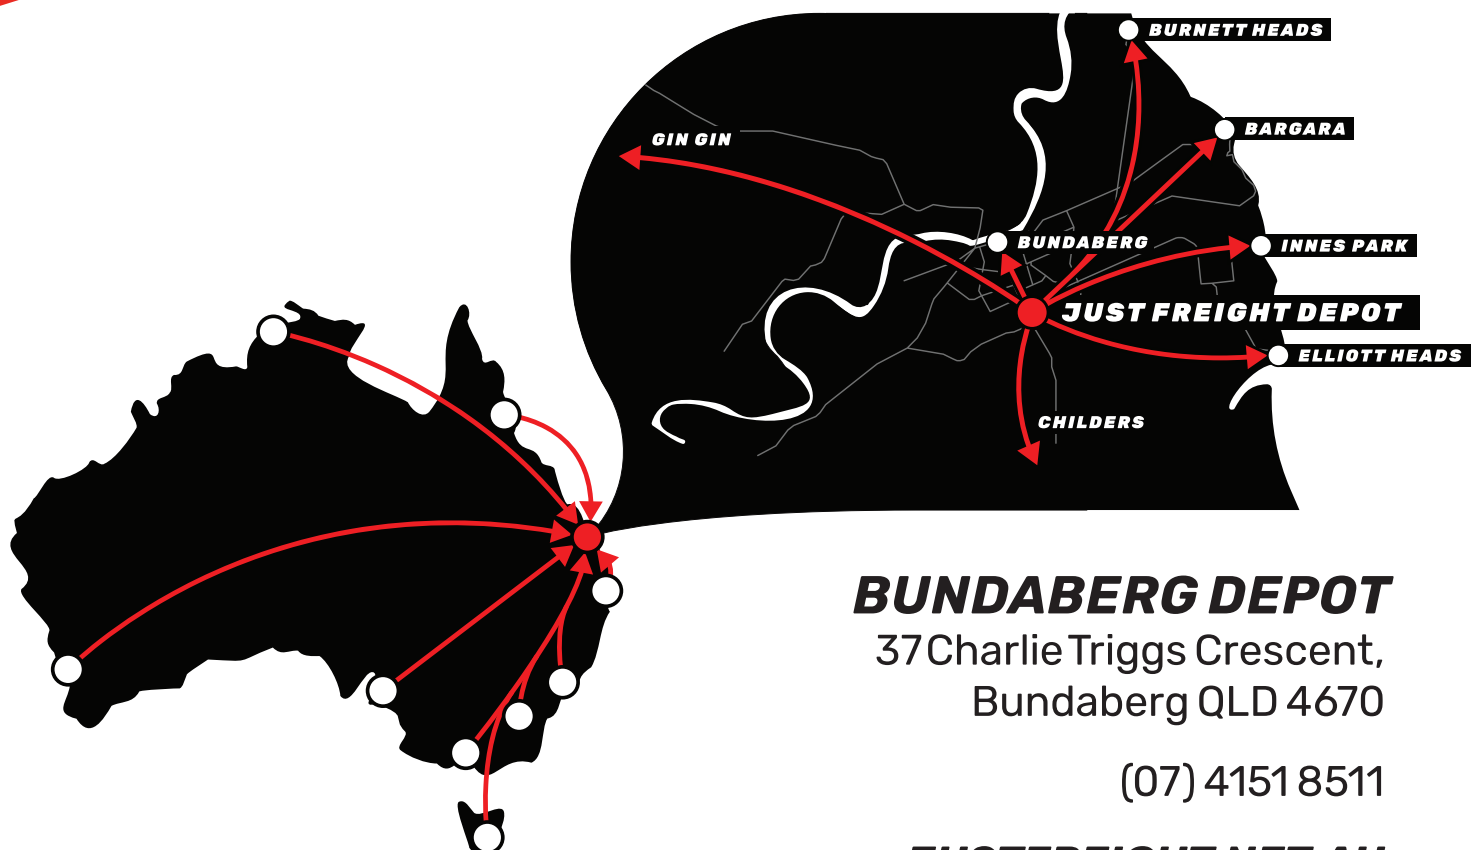

We're doing some big things in 2020! We've purchased a 21,000m² block on which we'll be building our new state of the art transport facility. It will add 3500m² of covered space with loading docks and a future freight carousel for maximum efficiency. We're always looking for ways to offer our customers more and better services so we're looking forward to this new addition!
